

GADOCAL K

Calcium is the most abundant mineral in the body and is required to build and maintain strong bones, regulate muscle contraction (including contraction of the heart muscle) and a co-factor for many enzymes.

Potassium is the third most abundant mineral in the body. It helps regulate fluid balance, muscle contractions and nerve signals. A high-potassium diet can help reduce blood pressure and water retention, protect against stroke and prevent osteoporosis and kidney stones.

GadoCal K is a Calcium-Potassium citrate compound designed for Calcium fortification. This patented compound provides a stable suspension with no sedimentation in milk and milk alternatives with no need for additional stabilizers. The synergy between Calcium and Potassium enhances absorption of both minerals.

SPECIFICATION

Calcium	15 %
Potassium	8 %
Packaging	25Kg
E number	E-333 + E-332

PROPERTIES

- + White powder
- + Odorless
- + Dispersible in solution
- + Neutral taste

APPLICATIONS

DAIRY

DAIRY
ALTERNATIVES

*GadoCal K produced by Gadot is Halal and Kosher certified.

GBi is a leading GMP manufacturer of ingredients for the Nutraceutical, Industrial, Food, Beverage and Pharmaceutical industries. We are committed to providing the highest quality products and reliability of supply for our customers. Gadot has more than 50 years of experience delivering products including tailor-made solutions and soluble minerals.
